View Systems Updates Investment Community on Its Network Services Division Contracts

BALTIMORE, Sept. 30, 2010 (GLOBE NEWSWIRE) -- View Systems, Inc. (OTCBB:[VSYM](#)), a security and tele-data solutions provider, issued an update today on the progress of its Network Services Division.

The company's Network Services Division has completed a fiber optic pathway installation at a 10-building townhouse complex in Rockville, Maryland.

Another job has begun at a housing complex in Forest Hill, Maryland that entails running fiber optic pathways to 12 buildings. The fiber optic pathways that are being installed will later be used to run Verizon FIOS.

The team is also scheduled to start a 68-unit job at a condominium complex in Timonium, Maryland in mid-October.

Paul Price, Vice President of View's Network Services Division, states, "View's Network Services team is focused on building our reputation by completing each job as efficiently as possible so that we will be first in line to obtain additional contracts. We are also hard at work promoting our digital video surveillance systems with wireless camera arrays to marinas, restaurants, warehouses, and other businesses, and have already received some positive feedback."

About View Systems:
