View Systems' Product Partner, Belcom, Announces Increased Regulations Making Weapons Detection and Baggage Scanners Mandatory in Abu Dhabi

BALTIMORE, MD -- (GLOBE NEWSWIRE) -- February 3, 2010 -- View Systems, Inc. (OTC BB: [VSYM.OB](http://www.viewsystems.com)), a security and tele-data solutions provider, announced today that the company's exclusive authorized international dealer and business partner in the middle east, Belcom, has reported increased interest in the ViewScan due to recent regulations in Abu Dhabi making it mandatory for hotels and tourist spots to utilize metal detectors and baggage scanners.

ViewScans were purchased by the UAE armed forces in Abu Dhabi for advanced security screening. The ViewScan has increased in popularity, both domestically and internationally. It's a computer-based system that can scan up to 1200 people per hour. As a person passes through the portal, along with a photograph, threat objects are visually located on the computer screen and an audible alert can be set to sound. The ViewScan produces no harmful emissions so it's safe for everyone.

Belcom is an exclusive international dealer and business partner of View Systems. Belcom, a subsidiary of the Belhasa Group of Companies, represents View Systems' products in the Middle East, Africa & Asia regions. (Source: www.belcom.ae). ViewScan units are currently placed in Saudi Arabia, Bahrain, UAE, India and Pakistan.

Gautham Belthur, General Manager of Belcom, states, "Initial discussions with businesses in Abu Dhabi are extremely promising. This will be a whole new frontier for the ViewScan to penetrate the international hotel market. Due to the many advantages of the ViewScan system, we have a very good chance to be selected for the projects, or perhaps even become a de facto standard."

About View Systems:

View Systems, Inc. manufactures and installs weapons detection identification systems, video management platforms and tele-data communication networks targeted towards correctional facilities, schools, courthouses, government agencies, event and sports venues, and commercial businesses.
