View Systems' SecureScan Featured at Clinton Global Initiative; Third Year in a Row

BALTIMORE, MD--(MARKET WIRE)--Oct 4, 2007 -- View Systems, Inc. (OTC BB:[VYST.OB](http://www.viewsystems.com) - [News](#)), a leading homeland defense solutions provider, announced today that View Systems was selected for the third time by T&M Protection Resources for use of the SecureScan Concealed Weapons Detection Portal System at the Clinton Global Initiative in New York September 26 - 28, 2007. Multiple units were deployed for this event. View's supplementary screening product, the LAW Handheld Metal Detector, was also utilized.

According to their website, the Clinton Global Initiative is a "non-partisan catalyst for action, bringing together a community of global leaders to devise and implement innovative solutions to some of the world's most pressing challenges (www.clintonglobalinitiative.org)." A series of distinguished guests were present at this by invitation only event including Former President William J. Clinton. In the past VIPs such as General Colin Powell, the Honorable First Lady Laura Bush, Bill & Melinda Gates of Microsoft, journalists Katie Couric, Diane Sawyer, Al Gore and the leaders of a multitude of nations have participated.

SecureScan is fast becoming the choice of concealed weapons detection systems in the U.S. as well as internationally. Especially attractive are the biometric fingerprint scanning and ID reading features which may be integrated with the unit.

View Systems CEO, Gunther Than, states, "T&M Protection Resources, which provides executive protection to some of the most prestigious individuals and corporations, was again chosen to secure the Clinton Global Initiative. T&M is our partner for placing our security screening devices at distinguished events like this one. Their expertise and training comes from the government's premier law enforcement and protection services. We are pleased that SecureScan was selected yet again to be the key security screening device due to its non-contact imaging / hands-off screening, positive ID integration, and rapid throughput; the SecureScan is 4-5 times faster than its leading competitors. This third year in a row deployment is a testament that the SecureScan is a better, faster, and more cost effective option for security screening at prestigious events such as this one."

About View Systems, Inc.

View Systems, Inc. provides security and surveillance products to law enforcement facilities such as correctional institutions as well as to government agencies, schools, courthouses, event and sports venues, the Military, and commercial businesses. View Systems' headline products include the SecureScan concealed weapons detection (CWD) portal system with biometric capabilities and positive ID verification, as well the R&D 100 Award winning VFR Visual First Responder camera system which is geared toward emergency first responders.
