View Systems' Network Services Division Continues Video Surveillance and Fiber Optic Installation Projects

BALTIMORE, MD -- (GLOBE NEWSWIRE) -- May 26, 2010 -- View Systems, Inc. (OTC BB: [VSYM.OB](#)), a security and tele-data solutions provider, announced today that the company's Network Services Division continues to generate business in the networked video surveillance and fiber optic markets.

The Network Services Team just completed a multi-camera surveillance installation at a warehouse distribution center for a popular US retailer. The team also completed a surveillance system upgrade and multi-camera installation at a prominent condominium complex in downtown Baltimore.

View is also in the midst of an ongoing project at the Enclaves Apartment Community in Silver Spring, Maryland, which involves replacing the old, outdated cameras and DVRs (digital video recorders) with new networked IP cameras and NVRs (networked video recorders). The Enclaves is a 23 acre complex with approximately 1100 residents.

In addition, the company continues to be selected on a contract basis to run fiber optic pathways for multi-dwelling units.

Paul Price, Vice President of View's Network Services Division, states, "Our team has been busy installing surveillance systems into locations across the state. View's efforts to market the systems to marinas, bars and restaurants have begun to show results; we have received a series of inquiries and have been performing site surveys in an effort to sell additional systems."

About View Systems:

View Systems, Inc. manufactures and installs weapons detection identification systems, video management platforms and tele-data communication networks targeted towards correctional facilities, schools, courthouses, government agencies, event and sports venues, and commercial businesses. More information can be found on the website at www.viewsystems.com.
