View Systems Issues a News Update and Review of 2007

BALTIMORE, MD--(MARKET WIRE) — February 26, 2008 — View Systems, Inc. (VYST.OB), a leading security solutions provider, has released an update of company news and a review of sales during 2007.

View is pleased to announce that it will debut a newsletter geared towards the investment community. Those who wish to opt-in to receive this publication should email info@viewsystems.com with NEWSLETTER in the subject line. Please be sure to include your name, phone number, fax number and/or email address. You may also call 877-843-9462 or visit the Company Information page of our website to sign up. This bulletin is expected to be very informative so interested parties are encouraged to sign up today.

View is no longer focusing marketing efforts on the VFR Visual First Responder. It has been replaced with the more versatile MMV Multi Mission Video camera which is more compact and can be worn on a helmet or vehicle-mounted. Additional information is available at www.viewsystems.com.

Recap of 2007 Sales

- 37 SecureScans were sold to facilities in 10 states and internationally
- 10 VFRs and 4 MMVs were sold to 4 states and internationally
- Orders for 34 of the LAW handhelds came in from 5 states and internationally
- Orders for 5 TM Series surveillance systems and 2 Positive ID systems were received from 3 states
- SecureScan extended warranty orders continue to be placed by existing clients
- A series of domestic and international dealers signed on to represent View's product line

Gunther Than, CEO of View Systems, states, "Purchase orders continue to cross our desks and we continue to perform product installations. Orders for extended warranties pour in weekly providing a steady stream of revenue. I am also delighted to unveil View's first newsletter, 'What's New at View.' We look to this publication as a way to share our news and achievements with our valued investment community. I encourage those who have not already signed up to do so. With sales increasing and costs holding steady, the company is growing stronger. We are negotiating for investments to be used for inventory to satisfy backorders and operating capital to be used for installs and market expansion. We will be filing for provisional patent applications in the next several months. We hope that 2008 will be a prosperous year for View Systems."

###
