To Whom It May Concern:

I am currently using the SecureScan II system in the Effingham County Jail and in our Courthouse. I am incredibly pleased with its capabilities. Our deputies like the reliability and ease of use.

I like the fact that the system takes a snapshot photograph of each person that walks through the portal, and saves it in case we need to go back and look at it later.

It is my pleasure to recommend the SecureScan II Concealed Weapons Detector and the View Systems team to any other law enforcement professionals looking to add to the security of their facilities.

Sincerely,

A handwritten signature in black ink that reads "Jimmy McDuffie".
