

TM Series Digital Video Recorder

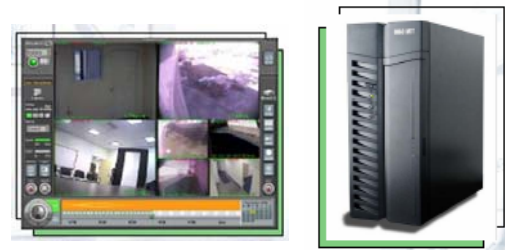

VIEW SYSTEMS

Whether used as a standalone system or in a network configuration, View's **TM Series** network DVR (Digital Video Recorder) offers unrivaled features and performance at an unprecedented price level.

Features of the **TM Series DVR**

- Advanced motion detection software
- Web based management
- Date and time stamp
- Regulated bandwidth usage can be adjusted
- Up to 1 minute pre-trigger alarm
- Firmware updates over network
- Viewer software updates via the Internet
- View cameras remotely via the Internet and password
- CD writer with watermark
- 800 Zone motion detection
- Email notifications
- Robust embedded software
- Easy setup and configuration
- High performance Windows™ client software
- Password protection
- Low power consumption
- Low cost and highly reliable

The TM Series, offered in 4, 8, 12, or 16 camera configuration, supports simultaneous video feeds from all connected channels. Additionally, the DVR comes standard with a LAN modem port for both network and dial-up connectivity.

With the TM Series DVR, you can:

- Digitize, compress, and display video for up to 16 analog cameras at 640x480 at up to 120 frames per second.
- Schedule recordings based on motion or alarm triggers for each camera at variable frame rates
- Backup important video clips to a CD/DVD writer
- View live and recorded digital video directly from the embedded video server software
- Transmit live and recorded digital video over the network or dial-up connection for viewing through the Interceptor™ client program or through the built-in web server

The TM Series DVR was designed with user-friendliness in mind. Setup of the DVR can be easily achieved within minutes through the use of the intuitive IR remote control and VCR-like graphical user interface.

Client Testimonials

"View Systems puts forth great effort to ensure the satisfaction of their customers and the quality of their products. I would recommend View Systems products to any other business owner looking to improve security on the premises of their location."

-Joseph Pirog, Walter Jay Auto Painting,
Baltimore, Maryland

"I like the fact that I can call the View team if I need assistance with the unit, and they are always quick to [help]."

- Paul Friedenber, JD's Smokehouse,
Baltimore, Maryland

"I recommend this system and this company to any other business owners looking to secure their premises and their property."

- Joseph Pecoraro, Auto Body Images,
Jessup, Maryland

"I recommend the View Systems product and team to any other business owners looking to increase security on their premises."

- Scott Braglio, The Millstream Inn,
Gwynn Oak, Maryland

"View Systems has done an excellent job in providing Cordelia Stables with superior surveillance equipment and professional, high-quality installation. The sales team and installers were prompt and helpful, and the products are outstanding. It is our pleasure to recommend View Systems to anyone who is looking to secure their property through the use of surveillance cameras."

- Kim Haugh, Cordelia Stables,
Street, Maryland
